DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1: between lines 4 and 5, insert --employing a decoder for--.

Claim 12: between lines 5 and 6, insert --employing a decoder for--.

Claim 20: between lines 6 and 7, insert --employing a decoder for--.

Claim 22: between lines 6 and 7, insert --employing a decoder for--.

The Examiner's Amendment is necessary to avoid a possible rejection under 35 U.S.C. 101 as the claims not being tied to another statutory category, such as an apparatus.

Response to Arguments

2. Applicant's arguments, see Remarks (pages 17-19), filed 3/10/2009, with respect to claims 16, 18, and 20-23 have been fully considered and are persuasive. The rejection of claims 16, 18, and 20-23 has been withdrawn.

Allowable Subject Matter

3. Claims 1-29 are allowed.

Art Unit: 2624

4. The following is an examiner's statement of reasons for allowance:

* The term "computer readable medium" has been added to some independent claims to avoid any possible rejection under 35 U.S.C. 101 to claims 16, 18, and 20-23;

* The present invention provides a new method and system for decoding corrupt code streams for encoded digital imagery/video and, in particular, JPEG2000 code streams with improved error resilience properties (specification, page 14, lines 2-4).

Particularly, the new method and apparatus comprises the following features, which the prior art taken either singly or in combination does not teach:

- detecting an error in a partition set in which data that follow the error depend on said error; determining at least one section of encoded data that follow the error in the partition set that can be salvaged (see independent claim 1);
- analyzing the dependencies... that can be salvaged (see independent claim 12);
- all the steps of discarding and decoding (see independent claims 20 and 22);
- decoding... and decode said sections (see independent claim 24);
- one or more display devices... and decode said sections (see independent claim 26);
- a JPEG2000 decoder... and decode said sections (see independent claim 28).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
